Blackfoot Crossing Archaeology Field School May 6-June 13, 2024

Department of Anthropology and Archaeology Contact: Dr. Lindsay Amundsen-Meyer (Imamunds@ucalgary.ca)

The Siksika Nation

- Our work occurs at the request and with the permission of the Siksika Nation, at archaeological site EePf-54 in the South Camp area of the Nation.
- Students will have the opportunity to work with our Siksika partners and community members during the excavations, and to experience cultural traditions and ceremonies necessary for these excavations to occur.
- All work occurs in partnership with the Siksika Nation, and the 2024 excavations are pending approval from the Nation.

Excavations at EePf-54

- · The field school is held at EePf-54, a stratified campsite with at least six distinct archaeological occupations spanning at least the last 4,000 years, and potentially the last 10,000 years.
- This important and unique site is located at an important place in the Blackfoot cultural landscape, adjacent to Sooyohpawahkoy (ridge under water), Chief Crowfoot's last tipi and grave, and Treaty Flats.
- Exploration of the dynamic relationship between the archaeological record of EePf-54 and Blackfoot oral tradition is a fascinating archaeological project, with many questions waiting to be answered.

ARKY 306 and ARKY 506 **Field Course in Archaeological Field Techniques** Instructor: Dr. Lindsay Amundsen-Meyer Lecture/Practical (7 hours/day on site plus travel time, 5 days/week)

Course Information

- The cost of the course is the standard six credit course fee plus a \$850 supplemental field fee.* Visit www.ucalgary.ca for course fee information.
 - *The University of Calgary retains the right to change the fee structure without notice.

- ARKY 306 is a 1.0 full course credit. The course counts as a 0.5 full course equivalent for the Archaeological Techniques portion of the Major Field Requirement.
- ARKY 506 is a 1.0 full course credit
- **ARKY majors prioritized for registration until January 15, 2024.

Course Description

Our field school aims to provide students with transferable skills useful across disciplines. increase their understanding of Indigenous worldviews and current realities, and provide realworld archaeological training useful in industry and academic settings.

Students will gain experience in all aspects of archaeological survey and excavation. An integral topic of this course is the history of Siksikaisksahkovi as presented by Siksikaitsitapi elders and knowledge keepers.

Course Learning Outcomes:

By the end of this course, students will be able to:

- 1. Understand and apply Northwestern Plains cultural historical schemes
- 2. Explain the relationship between land and Siksikaitsitapi (Blackfoot) identity
- 3. Relate principles of Indigenous knowledge to the field of archaeology while working effectively as archaeological field crew in academic and industry contexts
- 4. Generate strategies and approaches for engaging Indigenous community partners and reconciling Indigenous and Canadian relations
- 5. Recognize basic artifacts, raw materials, and form types and by able to apply that knowledge to artifact cataloguing

Logistics and Preparation

- Field school runs Monday-Friday (with the exception of statutory holidays). The first week of field school will be on campus from 8:30 am to 4:00 pm. Following this, class will be held from 9:30 am to 4:00 pm on site at EePf-54 (weather permitting). The final week of class will be spent in the Alberta Heritage Project lab (8:30 am to 4:00 pm). Students must be prepared to allow weather or other logistics to alter this general schedule.
- A van will provide transportation to and from the EePf-54, located east of Calgary near the village of Cluny, Alberta on the Siksika Nation. Students must be at the meeting place on campus at 7:30 am for departure and should expect to return at approximately 5:30 pm
- Archaeological excavation is physical demanding students should be prepared for physical exertion on field days. All participants must bring their own food, drinks and appropriate clothing. The class is primarily an outdoor activity and students must be prepared to take care of themselves in the field.
