The Cercle Benveniste Circle is a research group of the Faculty of Arts at the University of Calgary, that is open to all – colleagues as well as students – who are interested in language, in any and all of its aspects. Just as Émile Benveniste laboured to build bridges between the world of language sciences and language arts, as well as various other fields of study involving the use of language, so will our sessions take place in a spirit of disciplinary openness and dialogue.

2020-2021 Calendar
