

GRADUATE PROGRAMS IN PHILOSOPHY

WHY UCALGARY?

1 faculty

The department is strong in many areas of philosophy, especially ethics, philosophy of science, and philosophy of language and logic. You do not need a supervisor before applying. The Graduate Program Director will work with you during your first year of study.

2 funding & opportunities

Most of our graduate students are admitted with guaranteed funding packages. Doctoral students receive funding support for a minimum of four years, and most thesis-based masters students are fully funded through to the winter terms of their second year. Students receive teaching experience through TAs, and some teach their own courses. On campus resources for teaching and professional development, as well as for academic and alternative careers, are available.
