### HIGHLIGHTED PUBLICATION

Bell, A., Johnston, A., Makwarimba, E., & **Malhi, R.** Rewards and recognition for Canadian distributed medical education preceptors: A qualitative analysis. *MedEdPublish*. <https://www.mededpublish.org/articles/12-36>

**Background:** Recognition of Distributed Medical Education (DME) preceptors by medical institutions ensures that important community-based training opportunities remain available to learners. Yet the literature seldom explores what rewards are meaningful to this population of teachers. The goal of our national project was to provide guidance to medical schools about the financial remuneration and non-financial rewards that are most valued by DME preceptors.
