

Language Research Centre

COMMUNITY OUTREACH ACTIVITIES

(2022-2023)

Call for Initiatives

The Language Research Centre (LRC) supports community outreach activities of its members. Eligible community outreach activities are those activities that primarily address the wider community beyond the university campus while being meaningfully related to the research undertaken in the LRC in the areas of theoretical linguistics, applied linguistics and language learning, and literary and cultural studies. Members can request funds of up to \$3,000 CAD. Requests will be accepted between April and December 2022, for events between April 2022 and February 2023. Requests will be considered on a rolling basis by the LRC Steering Committee.

Interested members of the LRC are asked to provide a brief description of the planned outreach activity (approximately 250-500 words). This statement should clarify what the proposed activity consists in and who the intended audience is. In addition to this project description, members of the LRC are asked to provide a budget for the activity alongside a specific monetary request from the LRC as well as a statement indicating whether any funding is sought elsewhere. If space in the LRC is requested, this should be indicated too. Additionally, applicants are encouraged to address briefly a) the question of equity and of access to the initiatives across various communities and b) the environmental impact of the proposed activities (please see the links below for some orientation). In-person events have to comply with the [University regulations for in-person events](#).

Members who receive funding through this initiative are asked to provide a brief report on their activity that can be used for the LRC website.

Please send all questions and funding requests to the LRC Director.
