The audit worksheet allows you to keep track of household water use on a daily basis and to calculate your weekly water use.

| In the bathroom |  |  |  |  |  |  |  |  | $\times 20 \mathrm{~L}$ |  |
| :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- |
| toilet flushes |  |  |  |  |  |  |  |  | $\times 40 \mathrm{~L} / 5 \mathrm{~min}$ |  |
| showers (per 5 minutes) |  |  |  |  |  |  |  |  | $\times 150 \mathrm{~L}$ |  |
| baths |  |  |  |  |  |  |  |  | $\times 19 \mathrm{~L} / \mathrm{min}$ |  |
| teeth brushing (per minute) |  |  |  |  |  |  |  |  |  |  |
| shaving, with sink running (per <br> minute) |  |  |  |  |  |  |  |  | $\times 19 \mathrm{~L} / \mathrm{min}$ |  |

## In the kitchen

| cooking |  |  |  |  |  |  |  |  | $\times 19 \mathrm{~L}$ |  |
| :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- |
| dishes by hand (include wash <br> and rinse water) |  |  |  |  |  |  |  |  | $\times 57 \mathrm{~L} / 3 \mathrm{~min}$ |  |
| dishwasher |  |  |  |  |  |  |  |  | $\times 40 \mathrm{~L}$ |  |

## In the laundry room

| clothes washing |  |  |  |  |  |  |  |  | $\times 193 \mathrm{~L}$ |
| :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- |

Outdoors
garden/lawn watering (per hour)

|  |  |  |  |  |  | $x 950$ L/hour |
| :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- |

Other

| running a tap (per minute) |  |  |  |  |  |  |  |  | $\times 19 \mathrm{~L} / \mathrm{min}$ |  |
| :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- |
|  |  |  |  |  |  |  |  |  |  |  |
| Total estimated weekly water use |  |  |  |  |  |  |  |  |  |  |

Instruction: Every time you wash a load of laundry, run a tap, or flush the toilet, mark it on the worksheet. At the end of the week, add up the number of times each activity was done and multiply this by the amount of litres shown under the "maximum volume per use" column.
